# SAVE CANDLESTICK POINT!!!

We, the undersigned, protest the proposed closure of Candlestick Point State Recreation Area in Governor Schwarzenegger's 2008-09 budget. In a part of San Francisco that has suffered decades of harm from industrial and military pollution, this wetland habitat and shoreline park offers irreplaceable benefits to public and environmental health. The governor's budget cuts will jeopardize the entire multi-year remediation and restoration of Candlestick Point, as well as the youth-run native plant nursery and community garden at the Ranger Station.
**We urge Assemblyman Mark Leno and State Senator Carole Migden to sign the "Save Our State Parks" pledge - take State Parks off the table for budget cuts!**
